## PROFESSIONAL EXPERIENCE

Digital Skill School | [LINK](#)

July 2024 - present

Software Developer:

- Developed a Progressive Web App (PWA) for agreement creation and digital signing, accessible offline for greater flexibility.
- Enabled users to draft agreements and securely send them for electronic signatures, enhancing accessibility and convenience.
- Integrated real-time notifications, keeping users informed of agreement updates and ensuring timely follow-ups.
- Added customizable agreement templates to streamline document creation and allow for quick personalization.
- Implemented signature tracking, boosting workflow efficiency and supporting legal compliance.
- Achieved a 25% increase in user engagement by optimizing the PWA for seamless performance across devices and improving loading times.

CodSoft (Internship) | [LINK](#)

March 2024 - April 2024

Web Developer:

- Developed a full-stack blog platform, enhancing user engagement by 30% through optimized content delivery and user experience improvements.
- Created a project management tool that reduced team workflow processing time by 20%, supporting smoother team collaboration and task tracking.
